Puente Juárez – Lincoln • Puente Internacional
Nuevo Laredo II (Juárez) – Lincoln

**JUÁREZ-LINCOLN INTERNATIONAL
BRIDGE (LAREDO BRIDGE II) IS 1,008
FEET LONG.** It has four southbound lanes and
four northbound lanes for non-commercial traffic.
The bridge opened in 1976. The U.S. side of the
bridge is owned and operated by the City of Laredo.
The Mexican side of the bridge is owned by the
Government of Mexico and operated by Caminos y
Puentes Federales de Ingresos y Servicios Conexos
(CAPUFE).

CONNECTION TO MAJOR HIGHWAYS

IN THE U.S.: The bridge access road feeds directly into the southern terminus of I-35 which is part of the National Highway Freight Network. It also connects to Houston Street/Matamoros Street which is also designated US 83. I-35 connects with US 59 and Loop 20 which are part of the Texas Highway Freight Network. US 83 connects with Loop 20 and SH 359.

IN MEXICO: The bridge access road connects directly to Avenida Luis Donaldo Colosio, the loop around Nuevo Laredo. This highway provides access to MEX 2, MEX 85, and TAM 1.

INSPECTION FACILITIES

The Juárez-Lincoln International Bridge land port of entry (LPOE) is owned by the United States and is under the jurisdiction, custody, and control of the U.S. General Services Administration (GSA). It was completed in 1982 and renovated in 2000 and 2018. In 2011, GSA completed a U.S. Customs and Border Protection (CBP)-funded project to add three additional primary inspections lanes for a total of 15 primary inspection lanes.
